

Panel Analysis of Intimate Relationships and Family Dynamics

Call for Papers

International User Conference of the German Family Panel pairfam 2017

Proposal submission deadline: February 13th, 2017

Conference dates: May 31st – June 1st, 2017

Conference venue: University of Bremen, Germany

The fifth international pairfam User Conference will be held in Bremen from May 31st to June 1st, 2017. We invite submissions from national and international researchers from all disciplines on any topic utilizing data from the German Family Panel pairfam. The conference will be held in English.

The goals of the pairfam User Conference are to provide both new and experienced researchers a forum in which to present preliminary results, receive comments and feedback from experienced pairfam data users and staff, and to facilitate future collaborations.

Interested researchers are invited to submit an abstract for a paper or a poster presentation by email to support@pairfam.de. Abstracts should be no longer than one page in length, and must include the title of the paper or poster and the names, email addresses, and institutional affiliations of all authors.

The submission deadline is February 13th, 2017. Each proposal will go through a review process, and acceptance notifications will be communicated by March 17th, 2017. Depending on the number of submissions, the reviewer team might assign some submissions to a poster session.

There will be no conference fee, and travel costs cannot be reimbursed. A preliminary program and further information on next year's conference will be provided promptly.

The best conference presentation will be selected by a jury and awarded with 400 €, sponsored by TNS Infratest Sozialforschung.
