

LUND
UNIVERSITY

Summer Course in Historical Demographic Research Using Register-Type Data

Lund, August 11-22, 2014

Sources, methods and theories of historical demography:

- Vital registration, family reconstitution
- Scanian Economic Demographic Database (SEDD)
- Intermediate Data Structure (IDS)
- Life tables
- Mortality
- Marriage and fertility
- Social stratification and social mobility

Structure:

- Theoretical lectures
- Data management training using SEDD
- Model estimations

Instructors:

- Tommy Bengtsson
- Martin Dribe
- Jonas Helgertz
- Luciana Quaranta

Prerequisites: Knowledge of demographic and quantitative methods. Applicants should either be enrolled in a MSc or PhD program or have recently received their PhD.

How to apply: Application deadline is 30 March 2014. Information of admittance will be sent on 15 April 2014. A maximum of 20 students will be admitted.

Apply via email to Madeleine Jarl (madeleine.jarl@ekh.lu.se) by sending (1) a one-page statement of research interest and its link to the course and discipline, (2) a two-page curriculum vitae, including scholarly publications, (3) a one-page reference letter.

The course is organized by the Research School of the Centre for Economic Demography (CED), under the auspices of the European Historical Population Samples Network (EHPS-Net). There is no tuition fee and CED will cover lodging costs. A limited number of travel grants co-funded by the EHPS-Net will be provided.
